

Description

Thank you for purchasing a graphics card back plate manufactured by Aqua Computer. The back plate for kryographics NEXT RTX 3080/3090 Strix has been specifically designed for ASUS ROG Strix graphics cards. The back plate stabilizes the graphics card mechanically and ensures optimum heat dissipation for the voltage regulator area of the graphics card. Please note that this back plate has been specifically designed for use with a water block of the kryographics series!

Installation

Step 1:

Place the graphics card with installed water block onto a flat surface with the back side of the graphics card facing upwards. The card should not rest on the slot bracket but only on the water block. Remove the eight screws corresponding to the mounting holes in the back plate.

Lay the back plate onto an even surface with the "RTX" engraving facing downwards. Place the thicker thermally conductive pads supplied with the back plate onto the areas marked green in the figure.

Only for installation on 3090 cards: Cut fitting pieces from the supplied thinner pads

and place them on the red areas. (Do not mount pads in these areas when installing onto 3080 cards!)

Step 2:

Carefully place the back plate including thermal pads on top of the graphics card.

Step 3:

Attach back plate to the graphics card. To do so, use the following mounting material depending on the colored markings in the figure:

Blue marking: Four screws M2,5 x 8 mm, countersunk head.

Orange marking: Four screws M2,5 x 10 mm, countersunk head.

Step 4:

Carefully check that the back plate as well as the water block has level contact to all relevant components of the graphics card. Do not power on the graphics card or the PC if either back plate or water block does not perfectly fit the graphics card! In this case, disassemble and repeat the mounting procedure. All screws must not be overly tightened! Attend to the instructions supplied with the water block as well!

ATTENTION:

Disregarding the instructions may lead to severe damages! Aqua Computer GmbH & Co. KG cannot be held liable for damages or injuries resulting from improper installation or use of the product!

Thank you again for choosing an Aqua Computer product.
